VIPdesk Hiring Fashion-Forward Customer Service Representatives to Work from Home as Brand Ambassadors

(Alexandria, VA) December 13, 2010— VIPdesk, a leading provider of virtual contact center solutions, is currently hiring home-based Brand Ambassadors to represent the premier online apparel retailer, Bluefly. Brand Ambassadors will work from their home-office assisting retail customers by responding to incoming calls, emails and/or online chat requests, answering questions about products and their availability, facilitating purchases, promoting weekly specials and featured items, serving as a personal shopper and providing sales support. Brand Ambassadors representing Bluefly must have legal residency in one of the following states: Alaska, Colorado, Delaware, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, or Virginia.

VIPdesk is looking for customer care professionals who love fashion, sales and interacting with people as well as those who understand that every interaction with a customer provides an opportunity to create a memorable customer experience. Ideal candidates for this job are sales and customer service professionals with an interest in fashion, who want to provide personal shopping services and general customer care from the comfort of their own home office.

Candidates must have a high school diploma or equivalent and at least one year of experience in a customer-facing position. Prior sales experience is required. Additional requirements include excellent communication skills, computer savvy with internet skills, a polite and friendly phone demeanor, the ability to learn quickly in a technical environment, and the ability to work from their own home office.

VIPdesk is currently interviewing candidates and will complete the interview process for this position in January. To learn more about specific employment requirements or to apply, please visit <http://www.vipdesk.com/employment>.

About VIPdesk

VIPdesk's full suite of Brand Experience Management solutions includes Virtual Contact Center and Concierge Services, Social Media Management, Experiential Programs, IVR Services and Voice of the Customer Surveying & Analytics. Global industry leaders trust VIPdesk to enhance their brands through our customer care and loyalty programs. Serving as a seamless extension of their brands, VIPdesk's innovative Brand Experience Management Solutions deliver memorable customer experiences, business insights and actionable intelligence that generate customer advocacy and drive business growth. To find out more about VIPdesk, visit www.vipdesk.com.

Server Intellect Announces Affiliate Program

ORLANDO, Fla. (4/14/2008)—Server Intellect (www.serverintellect.com), a leading provider of advanced Windows-based Shared, Virtual Private Server (VPS) and Dedicated Web hosting solutions, today introduced their long awaited Affiliate Partner Program allowing partners to earn a commission for referring purchasing customers.

The Affiliate Program, custom developed by the company's in-house development team, touts many impressive features such as 'drill down' sales reporting to analyze details of each sale including Referring URL, IP Address and Browser UserAgent, complete sales and click statistics with historical reports, campaign management with page-specific redirects and extended-length 365 day cookie tracking.

The Server Intellect Affiliate Program also boasts a highly impressive collection of hosted graphics to promote Server Intellect coupled with an HTML Link Generation system allowing for easy Copy and Paste code with link and campaign codes already imbedded.

"Server Intellect has spent years building our world recognized brand and we have a solid reputation for high quality web hosting services. By capitalizing on our strong reputation and competitive pricing, Affiliate Partners can now reap the rewards of our years of hard work," said Eric Pratt, President and CEO of Server Intellect. "Whether you are an experienced webmaster with resource sites, a development firm with clients who are in need of web hosting services or someone who simply knows others that may be interested in our products; you can now earn a substantial income by partnering with Server Intellect."

Affiliate Partners can earn up to \$75.00 by simply referring purchasing customers to the Server Intellect website. Affiliates have the option of receiving a check payment each month or Server Intellect service credit.

"For years our customers and independent web promoters have been asking to partner with Server Intellect, and I am very proud to finally offer this opportunity to the world. This is an incredible development for our entire team and I am highly confident in the long-term success of this new program" said Pratt.

About Server Intellect

A subsidiary of Client Intellect, Inc., Server Intellect is a provider of advanced Windows-based Shared, VPS, Application and Dedicated Web hosting solutions. The company was founded in 2003 and is located in Orlando, Florida.

Server Intellect Introduces Microsoft SQL Server 2008

ORLANDO, Fla. (9/3/2008)—Server Intellect (<http://www.serverintellect.com>), a leading Microsoft Gold Certified Partner and provider of advanced Dedicated Server solutions, today introduced Microsoft SQL Server 2008 on its entire line of Windows Dedicated Servers.

Microsoft SQL Server 2008 is a major upgrade to the previous 2005 version. It offers an array of new and advanced features such as a new Resource Governor, full Database Encryption, Improved Auditing, Row based Index Exclusion and IntelliSense - Microsoft's implementation of auto-completion - for writing and editing SQL Queries.

"We are proud to be one of the first Microsoft Gold Certified Partners to offer Microsoft SQL Server 2008. I feel this new product release justly reflects our commitment and experience with the entire Microsoft product line and better positions Server Intellect as an Industry Leader in the Windows Server market," said Eric Pratt, CEO of Server Intellect.

Server Intellect is jointly partnered with Microsoft in the SPLA program (Service Provider's Licensing Agreement). The SPLA provides Server Intellect the ability to provide customers with the most current Microsoft product versions at a flexible cost structure.

Server Intellect offers SQL Server 2008 across its entire Dedicated Server product line and provides full managed support for the product. SQL Server 2008 is available in multiple editions to support the varying server needs of businesses of all sizes. Server Intellect offers five editions including; Express, Web, Workgroup, Standard, and Enterprise. The Express Edition is offered on all dedicated servers at no additional charge, and the other editions begin at only \$25 per month.

"As a company who is focused on Microsoft hosting technologies we are excited to offer the latest edition of Microsoft SQL Server on all of our dedicated servers" said Adam Cady, CTO of Server Intellect. "The addition of SQL 2008 support fits into our focus of providing our customers with the latest technology to meet the growing demands of the online marketplace. We have drawn on our close relationship with Microsoft to be one of the first providers to offer Microsoft SQL Server 2008 on a dedicated server platform."

A detailed comparison chart which lists the differences between the five versions is available on Server Intellect's Website. For more information about SQL Server 2008, please visit:
<http://www.serverintellect.com/features/microsoft/sql/>

Server Intellect Obtains Triple Competency with Microsoft

ORLANDO, FL (9/23/2008)—Server Intellect (<http://www.serverintellect.com>), a leading provider of advanced Windows-based Shared, Virtual Private Server (VPS) and Dedicated Web hosting solutions, today announced it is a Microsoft Gold Certified Partner with a triple competency including the Microsoft Hosting Solutions competency.

As a Gold Certified Partner, Server Intellect has demonstrated advanced expertise with Microsoft technologies. Gold Certified Partners represent the highest level of competence and expertise and have the highest quality products and services as verified by Microsoft.

Server Intellect previously attained Microsoft Gold Certified Partner status in December 2006 with dual competencies in Networking Infrastructure Solutions and Advanced Networking Infrastructure Solutions with Hosting Solutions specialization.

In 2007 Server Intellect was again awarded Microsoft Gold Certified Partner status and additionally obtained the Information Worker Solutions competency in addition to the Networking Infrastructure Solutions and Advanced Networking Infrastructure Solutions competencies.

In September 2008 Server Intellect achieved the Hosting Solutions competency, which affirms their Triple Competency Status in the Microsoft Gold Certified Partner program.

The Hosting Solutions specialization, formerly under the Advanced Infrastructure Solutions competency, has solely become the Hosting Solutions competency. This new competency better distinguishes Microsoft Partners as experts in the hosting industry.

Microsoft has made requirements for Hosting Solutions competency much more rigorous. It is only offered to technical partners with more than two years of experience in managing a Windows-based network and partners must have their employees pass additional exams.

"We are extremely pleased to not only have retained Gold Certified Partner status in the Microsoft Partner Program, but also to be one of the few technology leaders with Triple Competency Status. This clearly demonstrates our expertise with Microsoft technology and better positions us as a leader in the Windows hosting market" said Eric Pratt, CEO of Server Intellect.

Microsoft Competencies are designed to help differentiate a partner's capabilities with specific Microsoft technologies to customers looking for a particular type of solution. Each competency has a unique set of requirements and benefits, formulated to accurately represent the specific skills and services that partners bring to the technology industry.

Server Intellect wins Best Dedicated Web Hosting Award

ORLANDO, FL (10/10/2008)—Server Intellect (<http://www.serverintellect.com>) is proud to announce that the Dedicated Web Hosting Award from Top10DedicatedHosting.com for Best Dedicated Web Server Provider was recently awarded to Server Intellect.

Top10DedicatedHosting.com performs an extensive analysis of multiple webhost providers taking into account customer service, pricing, technology, scalability, uptime, reliability and overall performance.

Mr. Brain McCollum, Director of Top10DedicatedHosting, commented, “We’re very pleased to award Server Intellect with this high level of recognition after a lengthy period of testing. Their features and performance were unmatched. The results shown by Server Intellect were beyond what we expected.”

Server Intellect has become a front-runner in the global web hosting market due to its outstanding product and service offerings. Server Intellect has won dozens of awards and has a Microsoft Gold Certified Partnership with a triple competency, including the Microsoft Hosting Solutions competency which has been specifically noted by Top10DedicatedHosting.

“Server Intellect is very excited and honored to receive this award after extensive testing and review by Top10DedicatedHosting.com. Top10DedicatedHosting has a history and reputation for selecting only the best of the best for this award and we feel this award justly reflects on our strong commitment to providing a world class hosting service” said Eric Pratt, CEO of Server Intellect.

About Top 10 Dedicated Hosting

Top 10 Dedicated Hosting is a team of highly skilled professionals focused on providing Dedicated Hosting Reviews to Clients, Consultancy and Training to End Users. Server Intellect DedicatedServerDirectory Survey Results

ORLANDO, FL (12/5/2008)—Server Intellect (<http://www.serverintellect.com>), a provider of advanced Microsoft Windows based Dedicated Server Solutions, today announced that DedicatedServerDirectory (dedicatedserverdir.com) has recognized Server Intellect as an Industry Leader in the Dedicated Server Market by awarding the #1 Spot in the prestigious Dedicated Server Awards category.

Server Intellect has been independently selected by users of DedicatedServerDirectory as the #1 Award Winner in the Dedicated Server category for December 2008. The Awards are given after an independent user survey from thousands of visitors from the previous month. Users selected Server Intellect as the Best Dedicated Server Provider from over 100 web hosts who specialize in Dedicated Servers.

"DedicatedServerDirectory is thrilled to recognize Server Intellect as the #1 Award Winner from over 100 independent dedicated server web hosts. Server Intellect has a focused commitment to customer satisfaction and this is clearly demonstrated by the strong votes received in our independent user voting survey," said Caroline Paine, Sales Manager at Serchen Interactive: DedicatedServerDirectory.

"Server Intellect is honored to be recognized by DedicatedServerDirectory and the many happy users of our service. Our commitment to quality and customer service reflects in every aspect of our business, and our entire team is humbled by this prestigious award," said Eric Pratt, CEO of Server Intellect.

In September 2008 Server Intellect announced it had obtained a rare Triple Competency in the Microsoft Gold Certified Partner Program with the Hosting Solutions, Networking Infrastructure Solutions and Information Worker Solutions competencies.

Server Intellect Named Most Reliable Windows Host

Orlando, FL (12/17/2008) – Server Intellect (<http://www.serverintellect.com>) was named by Netcraft as one of the most reliable web hosting companies in their latest provider uptime report, and secured the top spot for the most reliable Windows Web Host. Netcraft has released their November analytical report that measures uptime and reliability for 50 top web hosting providers. The results were published after a month long automated analysis of routing requests and load timing requests from multiple key internet testing locations in the United States such as New York, Pennsylvania, Virginia, California, Arizona and international locations such as London, UK and Italy.

Server Intellect fared better than all other providers who were running Windows Server as their host operating system in order to secure the top spot for the Most Reliable Windows Host and was ranked number six on the list of all providers who utilized other operating systems.

"We are extremely pleased to be named Netcraft's Most Reliable Windows Web Host. It is an affirmation of our hard work and strong commitment to maximum network uptime. We know that reliability is a critical factor in choosing a web hosting provider, and this designation furthers our goal of being a leading provider of Microsoft focused hosting solutions." said Eric Pratt, CEO of Server Intellect.

The periodic Netcraft uptime reports are widely popular for customers conducting provider research and network analysis experts alike. Netcraft has provided research data and analysis on many aspects of the Internet since 1995 and is a well respected authority on the market share of web servers, operating systems, hosting providers, ISPs, encrypted transactions, electronic commerce, scripting languages and content technologies on the internet.

Server Intellect recently announced it has obtained a rare Triple Competency in the Microsoft Gold Certified Partner Program with competencies in Hosting Solutions, Networking Infrastructure Solutions and the Information Worker Solutions.

About Server Intellect

Server Intellect is a Microsoft Gold Certified partner and leading provider of advanced Windows-based Shared, Virtual Private Server (VP) and Dedicated Web hosting solutions. The company was founded in 2003 and is located in Orlando, Florida.

About Netcraft

Netcraft (<http://www.netcraft.com>) is a leading Internet research firm located in England and was formed in 1995.

Server Intellect Announces Geographically Redundant DNS

ORLANDO, FL (1/14/2009)—Server Intellect (<http://www.serverintellect.com>), a leading Microsoft Gold Certified Partner and provider of advanced Windows Hosting solutions, has announced free high availability Geographically Redundant DNS available to all customers.

Server Intellect has released free Hosted DNS powered by a robust Anycast DNS system (also known as Anycast Routing) which enables customers to host their DNS across multiple, redundant DNS Servers located in three enterprise class datacenters in the United States.

The Hosted DNS system, which is now available to all Server Intellect customers, offers the ability to configure enterprise level DNS redundancy in real-time with a few quick clicks in the Server Intellect Unity Customer Portal.

“The entire Server Intellect team is very excited to release such a powerful new feature, and at no additional cost to our customers. This release further confirms our dedicated commitment to providing an exceptional hosting product for small businesses at a very affordable cost.” said Eric Pratt, CEO of Server Intellect.

By using the Server Intellect Hosted DNS system, DNS requests are routed to the closest destination with the highest availability, preventing requests from being routed to a server that is unavailable or experiencing unusually heavy traffic.

“Service continuity is critical for businesses that operate on the web. This new feature will provide another layer of network protection to customers who demand maximum uptime. Businesses can trust that Server Intellect is committed to helping their web ventures succeed, and I do feel this feature release is a reflection of that philosophy,” said Adam Cady, CTO of Server Intellect.

Server Intellect Unveils New and Improved Website

ORLANDO, Fla. (8/12/2008)—Server Intellect (<http://www.serverintellect.com>), a leading provider of advanced Windows-based Shared, Virtual Private Server (VPS) and Dedicated Web hosting solutions, today unveiled their new and improved website, which includes a number of new and exciting features.

The new site is the result of months of development by a team of dedicated developers at Server Intellect.

The new Server Intellect web site was designed with a new clean look and feel. The layout and functionality was designed after deep analysis of customer website interaction and feedback.

One of the most touted features of the new site is the Dedicated Server Configuration Tool. This option gives clients and prospective clients the ability to custom configure their new dedicated server online by selecting from over 40 base server configurations and customizing the memory, hard drives, ports and more. Clients will receive an instant PDF quote which can be viewed or emailed to one or more people. Additionally, the quote is stored online and can be retrieved from the Server Intellect website for up to thirty days making the ordering process simple for those that need to align logistics before ordering.

Along with the new Dedicated Server Configuration Tool, one of the biggest new benefits is the site search feature which allows clients and prospective clients to search for information with ease. The new search functionality will enable visitors to quickly narrow down and access specific information.

Eric Pratt, CEO of Server Intellect says, “This new website better reflects our long-term goals of providing enterprise class solutions to small and medium sized businesses worldwide. I am confident that customers will find this new site to be a great asset in their quest for a true IT Solutions Partner.”

Server Intellect provides a wide array of options for small to medium sized businesses. The options range from basic web hosting services and dedicated server packages to sophisticated enterprise solutions encompassing multi-server load balanced configurations. All of the options are explained in detail on the site, allowing visitors to make better informed decisions.

To learn more about the Server Intellect and to view the new site, please visit:
<http://www.serverintellect.com>

Denise Austin Endorses BioTrainer Weight Loss System

Monday January 23, 10:27 am ET

Revolutionary Device Gets the Nod From America's #1 Fitness Expert

BOCA RATON, Fla., Jan. 23 /PRNewswire/ -- America's #1 fitness expert Denise Austin makes an unprecedented move to endorse a product outside the boundaries of her fitness media empire -- the revolutionary BioTrainer(TM) exercise monitor, the heart of the new BioTrainer Weight Loss System(TM). Her endorsement of this sophisticated caloric monitoring device further paves the way for the BioTrainer and its medically tested and clinically proven technology to play a pivotal role in the battle to stem the tide of obesity and to reinvestigate a physically active America.

"One of the reasons I believe the BioTrainer has so much promise is that it awakens you to all of the things you can do to burn calories in a day. An active lifestyle, over and above your daily workout, can burn so many additional calories, and the BioTrainer is able to measure both. It's such a great motivator and really a technology for the good, one that keeps you on your feet and moving," says Austin.

Motivating millions of Americans for over two decades to stay in shape and make fitness and proper diet a fun lifestyle, the energetic fitness expert is a household name with over 20 million exercise videos sold and the longest running fitness show in television history, "Denise Austin's Daily Workout," now on the Lifetime Cable Network.

"I am proud to have someone of Denise's stature and reputation associated with the BioTrainer," says prominent marketing-guru Patrick Cioffi, Jr., CEO of Premier Partners Marketing who owns the exclusive worldwide rights for BioTrainer. "The fact that Denise believes in and endorses the BioTrainer speaks volumes about its potential to fill the caloric monitoring void in the health, fitness and weight loss industries."

Appointed to the President's Council on Physical Fitness and Sports in 2002, Denise Austin has set out on a new mission to get Americans healthy with a special emphasis on programs to help kids lay the foundation for active lives. "The President's council has given me a unique perspective on the importance of finding effective ways to motivate Americans, especially children, to embrace healthy lifestyles," says Austin.

"With so many studies pointing to the effectiveness of the BioTrainer to help motivate increases in daily exercise and positive lifestyle changes, the BioTrainer will definitely be out there playing an important role. Especially since today's kids are so gadget-centric, I think they'll be drawn to it as my own children have," says Austin.

Media, medical, and government-funded reports increasingly tout the combination of proper diet, exercise and caloric monitoring as the most promising approach to halting the U.S. obesity epidemic, and the BioTrainer is the first affordable and truly accurate way to measure the caloric burn facet of this equation.

Now available online at <http://www.BioTrainerUSA.com>, The BioTrainer exercise monitor retails for \$49.95 and will soon be sold at mass merchants and sporting goods retailers through Sportline.

For clinical studies conducted in conjunction with Johns Hopkins University, The Cooper Institute, and the American Psychiatric Association, reports by the NIH, product photos, company information and previous press releases, please visit <http://www.BioTrainer.info>.

The BioTrainer(TM) exercise monitor is a revolutionary new weight loss aid that measures physical activity, calories burned and how long the user has been active. Patented and medically tested, this unique "lifestyle" exercise monitor is clinically proven to motivate and encourage individuals to stay active, lose weight and keep it off. Besides easy clip-n-go operation, it features a 9-day memory, large LCD reversible display, and no programming is required other than entering your weight. For more information, visit <http://www.BioTrainerUSA.com>.

Fitness Technology Expert Jordan Gold Joins BioTrainer Team

BOCA RATON, Fla., March 1 – Respected expert on the melding of fitness and technology, author and Internet strategist Jordan Gold joins the BioTrainer™ marketing team to launch the BioTrainer Weight Loss System™ Online Monitoring Program and its soon to be live community user site www.BioTrainerCentral.com. Gold is the author of nine books including "Get Fit with Technology – How to Lose Weight Using Your PC" and is CEO of Global Content Strategies, an Internet consulting firm in Arcadia, CA.

Mr. Gold will focus his expertise on BioTrainer's subscription-based monitoring program, the first ever program of its kind able to accurately track weight loss on a daily basis. A specialist in online subscription programs, Gold's career aligns perfectly with BioTrainer. "All of the pieces of the BioTrainer puzzle are coming together with a synergy rarely seen online," says Gold. "I'm very excited about BioTrainer and joining the BioTrainer team. BioTrainer is a remarkable combination of giant consumer need, timely fitness technological breakthroughs, and Internet compatibility that got me so excited about BioTrainer's future. Not only is it the best fitness value on the market, but it also aligns itself perfectly with clinical data showing that people who integrate consistent online monitoring into their weight loss program lose an average of three times more weight than people who don't. Adding the revolutionary new BioTrainer exercise monitor to this equation spells blockbuster potential. It is undoubtedly the most effective technology driven weight loss system available today."

The brainchild of prominent marketing-guru Patrick Cioffi, Jr., CEO of Premier Partners Marketing who owns BioTrainer's exclusive worldwide rights, the BioTrainer Weight Loss System combines the precise caloric burn monitoring capability of the BioTrainer exercise monitor with the <http://www.BioTrainerUSA.com> online monitoring program to give users the unprecedented ability to accurately measure and track both caloric burn and caloric intake.

"If it hadn't been for Jordan's book, I might not have seen the potential for the BioTrainer monitoring program technology as a mainstream consumer product," says Cioffi. "What a pleasure it is to actually bring Jordan onboard to take the BioTrainer user's experience to the next level and to help us realize the potential of this unique opportunity. With his help, the BioTrainer monitoring program will be an extremely powerful new tool for consumers to increase the potential for effective and long term weight loss."

FOR RELEASE: MARCH, 10 - MARCH, 16, 2003

Does Your Social Life Need Outsourcing?

CT area residents will soon have the chance to get up, get out and have some fun.

FunJunkee Adventures LLC is a great new company that was founded by Erika Omenson, "Head Honcho" and Kenya D'Agustino, "Top Dog". It will offer a variety of unique and interactive social events. The events will be geared towards CT residents over the age of 21.

Some of the events they will offer include; scavenger hunts, pub crawls, wine tastings, whitewater rafting/camping trips, beach volleyball, bus trips, game/movie nights, networking socials, happy hours and many more. They will also host interactive games, such as; Human Checkers, The Dating Game, Relay Races and more. FunJunkee Adventures will offer something for everyone.

"We realized there was a need for something more, and different, in CT," said Omenson. "We also know that, often, people don't have the time or energy to plan their social life, and that is the kind of service we will provide."

"Participants can bring their friends or come alone," D'Agustino said. "We know that single people often do not have other single friends to do things with. We will provide an avenue for people to meet outside of work or the bar scene."

"You're not going to meet new people or have fun sitting at home," Omenson chimed in.

"We are pleased to announce our first event. It's a Limo Race Scavenger Hunt – an absolutely wild romp around town," said D'Agustino.

The event will be held on April 12, 2003. Tickets must be purchased in advance. Check-in will be at the commuter parking lot in Manchester, CT (adjacent to John Harvard's) from 1:00 – 5:30 p.m. For a fee of \$60.00, the participants, broken into teams of 8 will be provided with a chauffeur driven limousine, a scavenger list, a Polaroid camera, a loot bag, paper and pencil. Fellow FunJunkees will scour the greater Hartford area for clues at local businesses and collect points while doing different activities at various locations.

Snacks, water, soda and other non-alcoholic beverages will be provided in each limousine and photos will be taken which can be purchased after the race for a reasonable fee.

The winning team will be the one with the most points and prizes will be awarded to the winning team.

Everyone who participates will receive a FunJunkee T-shirt and a free drink ticket to be redeemed at All-Stars immediately following the hunt. Here they can talk and laugh about the day's events.
